

BOILER FEED & CONDENSATE CONTROL PANELS

Available in simplex, duplex, triplex, and quadraplex configurations. Operation automatically alternates pumps every cycle for even pump wear and longevity, or shut down one pump for ease of service.

*Note: Other options available, please consult with sales office for a custom quote.

Condensate Control Construction	Simplex 1-Phase	Duplex 1-Phase	Simplex 3-Phase	Duplex 3-Phase
NEMA 1 type 1 Steel Enclosure	•	•	•	•
NEMA rated Motor Starter with Class 10 solid state overloads and phase loss/reversal protection			•	•
Control Circuit Transformer with fused secondary providing 120v control power			•	•
Motor Contactor	•	•		
Pump Circuit Breakers		•		•
Hand/Off/Automatic Selector Switch	•	•	•	•
Pump Run Indicator Light	•	•	•	•
UL/CUL 508 Approved	•	•	•	•

Simplex units designed to receive pilot signal from a Square D simplex float switch.
Duplex units designed to receive pilot signal from a Square D mechanical alternating float switch.
All prices include panel, panel mount, wiring, and labor to connect panel to switch & motors

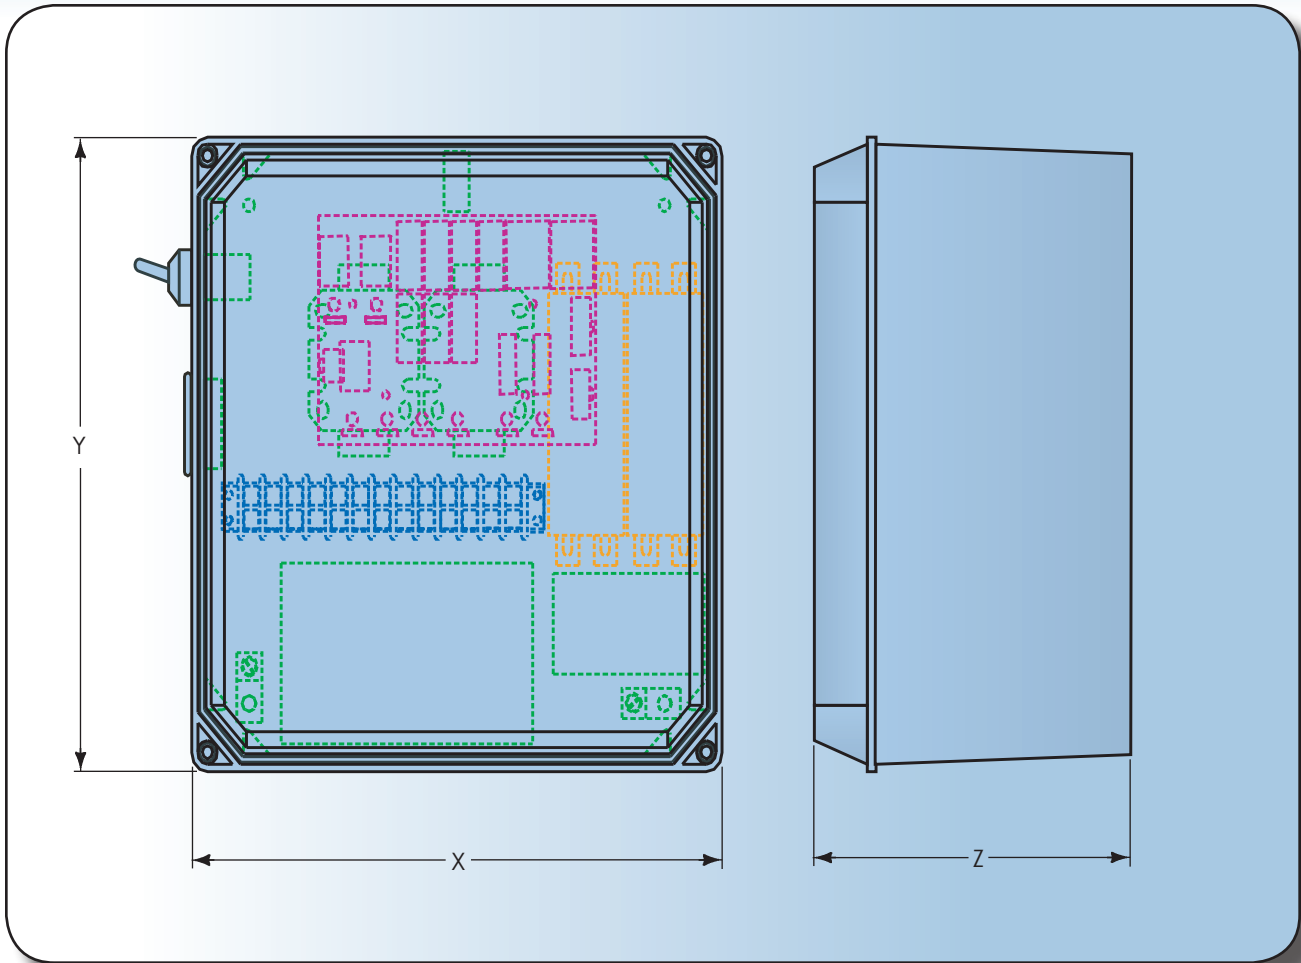

Boiler Feed Control Construction	Simplex 1-Phase
NEMA 1 type 1 Steel Enclosure	•
Lead Pump Selector Switch	•
Solid State Alternator	•
Motor Contactor	•
Pump Circuit Breakers	
Hand/Off/Automatic Selector Switch	•
Pump Run Indicator Light	•
UL/CUL 508 Approved	•

Boiler Feed Panels are designed to receive a pilot signal from the boiler.

CONTROL PANEL DIMENSIONS

Condensate Return

	X	Y	Z
3φ up to 5HP	16	20	7

Boiler Feed

	X	Y	Z
1φ any HP	12	14	6
3φ up to 5HP	16	20	6
3φ over 5HP	20	20	6
